Professional Summary

Computer Science student with hands-on experience in Python development, Quality Assurance, automation, web technologies, and Shopify e-commerce. Skilled in Python, HTML, CSS, JavaScript, PHP, software testing, and bug reporting. Strong problem-solving abilities with a focus on building practical applications, improving software quality, and continuously developing technical skills.

Technical Skills

Core: Python, Fast API, SQL, JavaScript, TypeScript, React, HTML5, CSS3

Web Technologies: HTML5, CSS3, Responsive Design, Flexbox, CSS Grid, Git, GitHub, Shopify, Liquid

Python Concepts & Libraries: Object-Oriented Programming (OOP), File Handling, SpeechRecognition, pyttsx3, pywhatkit

Testing & QA: Manual Testing, Test Case Execution, Defect Reporting, Bug Tracking.

Tools & Frameworks: Git, GitHub, Visual Studio Code, Supabase, Shopify liquid.

Soft Skills: Problem Solving, Team Collaboration, Communication, Creativity, Time Management.

Projects

ArtSense AI | React, TypeScript, Supabase, Computer Vision

Developed an AI web app that analyzes artwork metrics (color palettes, edge density, sharpness) and predicts art styles/mediums using confidence scoring.

Technologies: React, TypeScript, Tailwind CSS, Supabase, Computer Vision Algorithms.

Voice-Controlled Virtual Assistant (Nova) | Python

Developed a voice-controlled assistant with speech recognition, text-to-speech, and desktop automation.

Technologies: Python, SpeechRecognition, pyttsx3, pywhatkit, Webbrowser, OS.

Bakery Website | HTML, CSS, JavaScript

Designed and developed a fully responsive bakery website with a modern UI and interactive features.

Technologies: HTML5, CSS3, JavaScript, Flexbox, CSS Grid, Responsive Design.

Personal Portfolio Website | HTML, CSS

Built a responsive portfolio website to showcase projects and technical skills.

Technologies: HTML5, CSS3, Flexbox, CSS Grid, Responsive Design.

Personal Dashboard UI | HTML, CSS, JavaScript

Experience

Software Quality Engineering Intern

Big Brains Sep 2026 – Oct 2026 / Remote

Executing manual and automated software testing processes, drafting detailed test plans, documenting defect reports, and collaborating with developers to ensure web application stability and quality

. **Technologies:** Manual Testing, Test Case Design, Bug Tracking, QA Documentation, Regression Testing

Shopify E-commerce Developer

Self-Employed / Personal Projects | 2025–Present

- Developed and customized **two Shopify stores: SoukExpress**, a multi-product e-commerce store targeting Kuwait, and **SumiKage**, an online art gallery.
- Customized themes, layouts, product pages, collections, and responsive designs using **HTML, CSS, and Shopify Liquid**.
- Managed store configuration, products, branding, domains, shipping, and basic **SEO/UI optimization**.

Certifications

Deloitte Data Analytics Job Simulation – Forage *(June 2026)*

- Completed practical tasks in Microsoft Excel and Tableau, including data analysis, dashboard creation, and business data visualization using real-world datasets.

Education:

University of Agriculture Faisalabad (2023 – 2027)

Bachelor of Science in Computer Science | Current CGPA: 3.0

Punjab College Shahkot (2021 – 2023)

Intermediate in Computer Science (ICS)

Additional Information

Creative background in art and sketching, enhancing front-end design perspective. Keen interest in developing visually appealing and functional web interfaces.
